

- Ginkgo Biloba Extract -

Ginkgoes are very large trees, normally reaching a height of 20–35 m (66–115 feet), with some specimens in China being over 50 m (164 feet). The tree has an angular crown and long, somewhat erratic branches, and is usually deep rooted and resistant to wind and snow damage. Young trees are often tall and slender, and sparsely branched; the crown becomes broader as the tree ages. During autumn, the leaves turn a bright yellow, then fall, sometimes within a short space of time (1–15 days). A combination of resistance to disease, insect-resistant wood and the ability to form aerial roots and sprouts makes ginkgos long-lived, with some specimens claimed to be more than 2,500 years old.

Potential claims: Antioxidant. Memory and cognitive functions. Normal blood circulation and microcirculation.

INCI Code: Ginkgo Biloba Extract

Products Specification

Ginko Biloba Extract (EP 8.0) Quercitin/Kaempferol 0.8-1.2 Isohamnetin/Quercetin >0.1 Ginkgolic acid < 5ppm Flavone glycoside: 22.00-27.00% Bilobalide: 2.6-3.2% Ginkgolide A+B+C: 2.8-3.4%	Ginko Biloba Extract (USP 38) Quercitin/Kaempferol 0.8-1.1 Isohamnetin/Quercetin >0.1 Ginkgolic acid < 5ppm Flavone glycoside: 22.00-27.00% Bilobalide: 2.6-5.8% Ginkgolide A+B+C: 2.8-6.2%	Ginko Biloba Extract (CP 2015) Quercitin/Kaempferol 0.8-1.2 Isohamnetin/Quercetin >0.15 Ginkgolic acid < 10ppm
